PROFILE

I am an Informatics student at Rotterdam University of Applied Sciences with a strong interest in software development and problem-solving. My background in bilingual and international education has equipped me with strong analytical skills, clear communication, and the ability to adapt quickly in diverse environments. I am focused, eager to learn, and committed to building high-quality software.

EDUCATION

Rotterdam University of Applied Sciences | Rotterdam, NL

Bachelor Informatica | September 2024 - July 2028

- Current focus: Software development and Applied Computer Science
- Achieved the Propaedeutic Diploma
- Extra subjects: ICT Security in Work, Spanish

Mencia de Mendoza Lyceum | Breda, NL

Highschool Diploma HAVO TTO | September 2018 – June 2024

- Profile: Nature and Health
- Complete a bilingual education with a strong emphasis on international orientation and academic research.
- Final project (PWS): School Research Project - 7

EXPERIENCES

Cinema Reservation System – Team Project

Informatics Course, Rotterdam University of Applied Sciences – Year one

- Developed a C# application using a three-layer architecture, with a relational database and RESTful API integration. Ensured stability and quality through continuous testing and a focus on a clean, user-friendly UI.
- Applied Scrum methodology
- Final project grade – 9.3

HOBBIES & INTERESTS

- **Soccer** – Playing since childhood; played half a year for KNVB regional youth program.
- **Reading** – Enjoy reading about science to expand my knowledge.
- **Running** – Helps me stay focused, healthy and mentally sharp.
